

LM-Activator Seminar

Amsterdam, Netherlands 5th – 6th October, 2018

Intercepting malocclusions using LM-Activator eruption guidance appliance

Course objectives:

The aim is to provide an understanding of how to intercept different kinds of malocclusions early with LM-Activator eruption guidance appliance. In order to support evidence based treatment planning, scientific basis of growth and development of the dentition and malocclusions is presented as well as results of clinical research. Treatment of various malocclusions from diagnosis to retention is covered with a large number of clinical cases.

Lecturers:

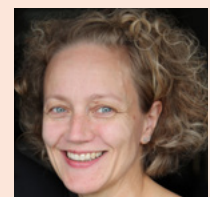

Dr. Gioacchino Pellegrino, DDS, Specialist in Orthodontics (Italy)

Dr. Pellegrino graduated with honors from the University of Naples in 1985 and he is working in his private orthodontic clinic in Caserta, Italy. In 1993, Dr. Pellegrino completed his postgraduate training in orthodontics and thereafter he has participated in a great number of continuous education courses in various topics of orthodontics. He is Adjunct Professor of Orthodontics at the University of Foggia. He is also Adjunct professor in Postgraduate in Pedodontics and previously in Postgraduate in Orthodontics at the University of Naples Federico II in Italy. He is frequently invited Lecturer in National and International Conferences and private courses. He has published several peer-reviewed papers and he is a member of several dental and orthodontic Societies, including SIDO, EOS, IBO, EBO, ANDI and SIOI.

Dr. Minna Ehrnrooth, DDS, Specialist in Orthodontics (Finland)

Dr. Minna Ehrnrooth graduated from University of Turku, Finland in 1991 and completed her specialization training in orthodontics in 2007. She is working as Chief Dental Officer at Vaasa Central Hospital in Finland since 2011. In addition to her work at the hospital, she is Consultant orthodontist at the area health care centers offering dental care and early orthodontic treatment for children. One of her main duties is to consult and supervise dental staff working at the Health Centers for the ways avoiding future occlusal problems using early intervention with eruption guidance appliances. She is a member of several scientific Societies.

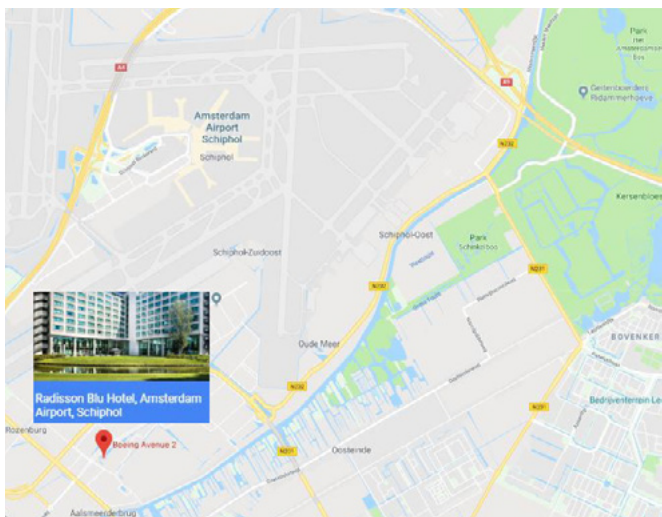

Program:

- Occlusal development in primary and mixed dentition
- Early signs of malocclusion
- From diagnosis to treatment plan
- How and when to use LM-Activators in different stages of dentition: an analysis through clinical cases
- Clinical management of early orthodontic treatment with LM-Activator: a marketing strategy
- Stability of early treatment
- Active retention to keep the result and avoid relapses
- Related clinical research
- Hands-on exercises in groups with models and LM-Activators
